1 Introduction: general instructions (12 pt, bold)

The contribution will be converted from the author's MS-Word (97/2000) file manuscript prepared according to these instructions. The manuscript must be prepared on A4-format (210 x 297 mm). This file must be sent on a floppy disk 3,5", via E-mail to: iccc@icc-conf.cz, or uploaded via the ICCC 2002 web information system. Send also one copy of the camera-ready manuscript (printed on white paper using **the laser printer only**) to address, which is shown in Figure 1.

The length of the paper is 6 (six) pages (obligatory). Do not type page numbers. Instead, write first author's name and the page number on the backside of each sheet. Do not bend or fold the manuscript. Paper should be prepared by means of any word processor MS-WORD 97/2000, with text font Times New Roman. Required page format A4 (210 x 297 mm). Margins: top 57 mm, bottom 50 mm, left: 40 mm and

1.1 Further information (10 pt, bold)

10 pt (0,37 cm)

The title of the paper, the names of the authors and the addresses must be centred between the left and right text margin. The title must be placed immediately below the top margin of the first page (that is 33mm + 57 mm = 90 mm) and typeset in bold face 12 pt size. Subsequently, you must skip 24 pt (9 mm) and print the name(s) of the author(s) in bold face and the address(es) in normal face. Then skip 24 pt (9 mm) and print the abstract. Identical authors' addresses should be omitted. The following address form is required:

First line/row: Institute or Department
Second line: Name of Company or University
Third line: City, Country, E-mail address

1.2 Figures, tables and equations

All figures and tables must be included in the MS-Word file of the paper and must be centred. Figures or pictures must be included to the text of paper as separate objects. Number and title of a figure should be placed under an illustration and centred with respect to it only black-and-white figures and tables are allowed.

$$M_s = M_m \cdot \sin(\varphi) \quad (1)$$

10 pt (0,37 cm)

10 pt (0,37 cm)

where: M_s - actual size, M_m - maximal size, φ - gradient.

10 pt (0,37 cm)

Equations are centrally justified and numbered consecutively from (1) upwards. Number must be justified to the right text margin.

Table 1. Table title (10pt)

10 pt (0,37 cm)

Table needs to be centred, and its number should be placed above the table, left-aligned.
